

# ▶ The World's Most Secure, Fully Customised EDMS

Cryptoloc Vault gives you a place to store your business files securely, without having to worry about cyber-attacks, theft or loss. It's designed around your needs and integrates with your other software.

Cryptoloc Vault is a high security cloud based EDMS (Electronic Document Management System) designed for enterprise clients, that need to protect their business files and data from cyber-attacks, disaster, theft or loss. It is a fully customised and tailored solution built around your exact requirements. It automatically encrypts your documents using our patented multi-layered encryption technology. It integrates with your other software and active directory. It allows you to fully trace and record every action, whilst leaving a full audit trail and forensic footprint for each file, meaning you know exactly who has accessed or modified a file or folder. It offers the best protection against ransomware and hacking attacks and is virtually impossible for a hacker to obtain any usable data. Cryptoloc Vault is a fully hosted service meaning there are no hardware purchase costs involved and because it's based in the cloud, you choose which country you want to store your data in.

**Distributed in Pakistan by your Cryptoloc Authorised Partner:**

**REDtone Digital Services Pvt. Ltd.**

Bangalow # D-23, Block 2 Clifton,

Karachi, Karachi City,

Sindh,

Pakistan

Tel: +92 (21) 111-737(RDS)-111
